# YOU CAN

## Save A Life

## Prevent Overdose

## Carry Naloxone

### What is Naloxone?

A medicine that rapidly reverses an opioid overdose by attaching to opioid receptors, and reversing and blocking the effects of the drug.

### How can you help?

If you know someone in need, carry Naloxone and learn to administer the medicine safely.

### isavefl.com

Locate Naloxone providers in your area and additional resources for community support.

Contact your local county health department for information on receiving **Naloxone** for your community.
